They have to call the GGD number: 0800-1202 or in case occupied: +31 850 659 063. Relevant information can be found here: <a href="https://www.government.nl/topics/coronavirus-covid-19/coronavirus-test">https://www.government.nl/topics/coronavirus-covid-19/coronavirus-test</a> The GGD will then refer you to a testing location. If it is a quick flow test, drivers can also go to commercial companies. A few months ago TLN made an overview of this (<a href="https://www.tln.nl/nieuws/sneltesten-aanbieders/">https://www.tln.nl/nieuws/sneltesten-aanbieders/</a>). We assume that the costs for a commercial (quick) test are also for your own account.		<p>If a driver tests positive in the Netherlands, the following procedure applies:            Contact regional GGD. In case of positive PCR test, driver will be referred by regional GGD to a location (hotel) where he or she can go into quarantine.            The costs of the quarantine are for the driver's own account (for the employer, team social can tell you more about this).            The driver who has tested positive is not allowed to go into quarantine in his truck or drive back to his own country.
